INTRODUCING ... FLAVOUR-ENHANCING 'NUTMEG' MILLS

***There's nothing tastier than freshly grated nutmeg
to enhance your recipes!!!***

Visualize and shave nutmeg in this comfortable to hold mill
by turning the smooth crank with little effort and high output.

A clear acrylic base with nutmeg coloured top compliments any kitchen décor!

Let the aroma surround you as the strong claw grasps the nutmeg while the
durable stainless steel blade/grater produces a finely grated, fresh spice.
